CORPORATE BROCHURE

GRUPO CEDI

Wemox, part of Grupo CEDI

GRUPO CEDI

A group growing through global partnerships and specialized companies

+400

Professionals in the region

+35

Years of experience

+300

Active clients

6

Countries of operation

Specialization

Companies focused on specific market verticals.

Argentine roots

Founded in central Argentina as a Microsoft partner.

Independent leadership

Each company has its own Managing Director and structure.

Multi-vendor partner

Top-tier partner status with several global leaders.

wemox

One group, five companies

Vertical specialization, shared know-how

Industry

Operational technology and traceability for mining and energy.

Data & AI

Data that drives decisions and efficiency.

Business Applications

Business solutions to streamline and scale processes.

Infrastructure & Cloud

Technology consulting, infrastructure and modern workplace.

Cybersecurity

Threat protection, detection and response.

Each company has its own Managing Director and an independent structure.

WHAT WE DO AND WHO WE SERVE

We help our clients evolve in a healthy, sustainable way

We exist to make sure our clients' technology delivers real impact:

Clearer processes

More efficient development

We reduce manual work and optimize operations with automation and AI.

Integrated systems

Connected technology

We integrate systems and platforms to make cross-team work easier and get the most out of your investments.

Data-driven decisions

Greater visibility to make decisions

We turn information into meaningful business metrics and support your decisions.

WHAT WE DO AND WHO WE SERVE

How we work

01

Turnkey projects

02

Specialist staff augmentation

03

Cross-functional squads

04

Workshops and envisioning

05

Ongoing support and enhancements

PILLARS

Two pillars and a cross-cutting layer

01 AI Business Solutions

Processes, customers and business agents on Dynamics 365, Power Platform and Copilot Studio.
Audience: business · solutions 01 to 06

02 Cloud Platform

Operations, software delivery and modernization with Azure, GitHub, AWS, IBM and Dynatrace. DevOps is our flagship.
Audience: technology · solutions 07 to 11

CROSS-CUTTING LAYER Security and governance

Data and agent governance built into every solution: classification and protection with Purview, plus control over what each person can query through an agent.

wemox

PILLAR 01

AI Business Solutions

Processes, customers and business agents on Dynamics 365, Power Platform and Copilot Studio.

wemox

01 Dynamics 365 CRM — Sales

Brings order to the sales process and makes the forecast reliable.

02 Omnichannel CRM and 360° customer view

Unifies customer service on a single screen, whatever the channel.

03 Financial Customer Onboarding and Assessment

Automates sign-up, document validation and the final decision.

04 Intelligent Event Management

Manages events end to end, from registration to logistics.

05 Low-code business applications

Turns the process that lives in an Excel sheet today into a real app.

06 Business agents and automation

Sales, support and HR agents that respond, decide and hand off.

PILLAR 02

Cloud Platform

07 Observability and operations

Keeps operations running and improves the user experience.

08 DevOps and software delivery

Pipelines with GitHub Actions, infrastructure as code and Copilot.

09 AI-powered modernization · Cloud Shift

Built on three engines: GitHub Copilot, AWS Transform and IBM Bob.

10 AI-assisted development

A framework for the new era: specifications, agents and a full-stack team.

11 Migration to GitHub Enterprise Cloud

A single enterprise account for all your code, with policies and Copilot.

wemox

Operations, software delivery and modernization. DevOps is our flagship; agents and modernization live here.

Security and governance: not a separate solution, built into every one.

ACCELERATORS

A first engagement with low risk

wemox

Assessments

2 to 6 weeks: FinOps · Modernization · AI Agents · Observability · Data Overexposure. Each one closes with a business case and a prioritized recommendation.

One-day workshops

App in a Day
Automation in a Day
Copilot in a Day
DevOps
Dynamics Sales

Start-Ups · 3 sprints

Customer Service
Sales Management
Campaign Management
Virtual Assistant

From assessment to governance

Assessment › Phased implementation › Professional services › Governance and ongoing services
Every accelerator has a written scope and ends in a decision: the client walks away with a plan and a budget.
